

RAJESH R

Full Stack Developer (MERN + NestJS) | ERP Systems & Integrations

Chennai, Tamil Nadu • +91 63820 22243 • rajeshravichandrans2001@gmail.com • [linkedin.com/in/rajesh-ravichandran](https://www.linkedin.com/in/rajesh-ravichandran)

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience designing and building a custom ERP platform (React/Vite, NestJS, MongoDB) used across multiple live client implementations. Experienced in translating complex business requirements into scalable data models and workflows, and integrating third-party services such as e-Invoice/e-Way Bill, WooCommerce, and WhatsApp Business. Comfortable owning a module end-to-end — from requirement documentation through implementation.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frontend: React.js, Vite, Next.js, Redux, Redux-Saga, React Hook Form, Formik, MUI, Ant Design, Tailwind CSS
- Mobile: React Native
- Backend: Node.js, Express.js, NestJS
- Database: MongoDB — schema design, data modeling
- Integrations: REST APIs, e-Invoice/e-Way Bill APIs, WooCommerce, WhatsApp Business API
- Tools & Practices: Git, Postman, Jira, Agile/Scrum, technical documentation (BRDs, build briefs), Claude Code / AI-assisted development

PROFESSIONAL EXPERIENCE

Developer — GwayIT (Gway Tech Solutions)

Oct 2024 – Present

Chennai, India

- Build and extend GwayERP, a custom ERP platform on React/Vite, NestJS, and MongoDB, across concurrent client engagements spanning manufacturing, events, and retail domains.
- Authored BRDs and developer-facing build briefs, translating business workflows into data models and module-level technical specs.
- Designed a Dispatch Management inventory model using a parent request record with allocation lines to support partial fulfillment.
- Integrated third-party services including e-Invoice/e-Way Bill APIs, WooCommerce order sync, and WhatsApp Business billing/broadcast.
- Diagnosed and resolved production issues including a PDF generation layout defect and a multi-file NestJS merge conflict.
- Built a performance reporting workflow for a 7-person intern cohort, including Excel/Word report generation and assessment templates.

Front-End Developer Intern — GwayIT (Gway Tech Solutions)

Jun 2024 – Oct 2024

Chennai, India

- Built responsive mobile and web interfaces using React Native and React.js under senior developer guidance.
- Implemented form handling and validation using Formik and React Hook Form; learned Git and API integration in a production codebase.

KEY PROJECT

GwayERP — Enterprise Resource Planning Platform

React.js, React Native, NestJS, MongoDB, Redux

GwayIT | Modular ERP suite covering CRM, Sales, Procurement, Inventory, Service, Gate Management, and Finance.

- Developed and maintained integrated modules within a single unified platform, with configurable, client-adaptive workflows and dynamic forms requiring no code changes per client.
- Built reusable UI components and dashboards, using Redux/Redux-Saga to keep real-time data synchronized across interconnected modules.

CERTIFICATIONS & ACHIEVEMENTS

- Rising Star Award (2024) — recognized at GwayIT for strong performance and contribution.
- React Native Development — Certification, Udemy.

EDUCATION

Bachelor of Engineering in Computer Science

Nov 2020 – Jun 2024

M.R.K Institute of Technology, Cuddalore
